Subject: The real situation on LBNE

Date: Thu, 22 Mar 2012 11:24:22 -0500

From: Pier Oddone <pjoddone@fnal.gov>

To: Milind Diwan <diwan@bnl.gov>, Bob Svoboda <rsvoboda@physics.ucdavis.edu>, Jim Strait
<strait@fnal.gov>

Please find the attached letter that I just received from Bill Brinkman clarifying the Office of Science plans for LBNE. We will follow the path outlined in Bill's letter to study a phased approach to the scientific goals of LBNE.

There is a lot of misunderstandings out there following the AIP report on Bill Brinkman's testimony to the House appropriations committee.

This letter can go to the collaboration and be distributed so there is a common understanding of the real situation.

Best,

Pier.
