Who has signed the LOI so far

- ☀ 306 (as of this morning)

 - ↳ ~ 2/3 (?) From the current LBNE lists

- ☀ At least 22 institutions NOT on LBNE

- ☀ During December, we will make a push from existing LBNE for more signatures (& I'll ask Alfons to do the same on the LBNO lists).

Proto-collaboration meeting

- ☀ (21) 22-24 January at Fermilab
- ☀ Will work with Sergio Bertolucci on an agenda
- ☀ At that time, Nigel would like LBNE (& LBNO) to go out of existence.
- ☀ As a practical matter, new working groups, email lists won't come into existence instantly. I suggest we continue with old structures under the new collaboration until new structures exist.
